• PROFILE

I am an experienced web developer with a strong background in PHP development. I mostly work on e-commerce platforms based on Magento or WooCommerce. Throughout my career, I have collaborated with various communication agencies, startup and small business, contributing to the successful completion of numerous projects. In addition to my technical skills, I also have extensive experience in team management, gained from previous roles as a director of a journalistic publication.

• EMPLOYMENT HISTORY

Junior Web Developer at Tannico s.r.l., Milano

January 2023

Engage in PHP development, creating new modules for Magento 1.9 and modifying/maintaining existing ones to ensure optimal performance.

Development of new REST API endpoints for seamless integration with the company's mobile application.

Minor frontend tasks using Next.js to enhance user interface and overall user experience.

Web Developer at MyOrango

June 2023 — March 2023

I helped the startup Myorango in developing their first platform.

Developed a custom plugin that enables users to select their desired travel period, dynamically generating the best package options based on their selection.

Web Developer (freelance) at Maio Web Design

June 2021 — January 2023

Developing and designing custom WordPress websites.

Creating custom plugins for WordPress and WooCommerce, enhancing the functionality of e-commerce platforms.

Design and implementation of event management systems, effectively coordinating and managing various events.

Development of management software for companies in the construction permit sector.
